### **Workshop content**

*The 2-day 'In-depth' workshops are aimed at the truly pencil passionate! We will cover creation of a portrait from start to finish, looking at the composition and structure of your artwork with a few simple guides to ensure you maximise the impact of your work. Colour selection and choice of pencils will also be included, and we'll explore the use of backgrounds in panpastel to give your work a painterly feel.*

*With two days to really delve deep into a variety of techniques we'll discover how to achieve depth in your work by paying attention to values which can really bring your work to life. We'll also cover realistic hair and fur textures, and brilliant and expressive eyes.*

*Tuition will be in small groups and will consist of demos alongside 1-1 help and problem solving as required. Basic materials are supplied and a take-home guide is included.*
